WHY STUDY CLINICAL EMBRYOLOGY?

Clinical embryology is one of the fastest-growing fields in healthcare, driven by the rising demand for assisted reproductive technologies (ART) worldwide. India alone has over 2,000 IVF clinics, and this number is growing rapidly. This creates an enormous demand for skilled, trained clinical embryologists.

OUR SPECIALIST

EXPLORE OUR EMBRYOLOGY COURSES

TARGETED SKILL DEVELOPMENT

For working professionals, doctors, and scientists who cannot commit to a 2-year degree but need to acquire specialized ART skills quickly, our Embryologist Certification Courses offer the perfect solution.

These highly intensive, focused programs range from 1 to 3 months and are designed to impart specific clinical skills that you can immediately apply in a working IVF laboratory.

At RACE, certification is not just about attending lectures; it is about proving competency. You will undergo rigorous practical assessments on animal models before receiving your certification.
